

Hello! My name is Brian Rubin, and I am running for the Town of Between Council. I have been a resident of Walton County for the past 17 years, and my wife and our two children live in the St. Martin Estates neighborhood, where I am the President of the Homeowner's Association's Board of Directors. Serving the community is extremely important to me; as a volunteer musician at our church, a volunteer member of the HOA, and a reputable business professional, it would be my absolute honor to have the opportunity to serve the Town of Between as a member of the Council.

As a graduate of the School of Business at Western Carolina University, I majored in Computer Information Systems. Having earned numerous certifications from Microsoft, I am also a certified project manager. For nearly 20 years, I have dedicated my entire career to the computer software industry. As a Software Sales Manager for the publicly traded company Tyler Technologies, we design, develop, sell, support, and implement software for local governments across the country. My profound work experience, relationships with local leaders, and overall business acumen are all traits that will help me be a strong advocate and voice for the community. Notably, I work with local governments and councils of all sizes literally every single day, and I have learned a wealth of industry knowledge and best practices that are applicable to the operation of the Town of Between. It is my goal to utilize my skill sets to further the growth of our local community and bring solutions to the challenges of tomorrow.

In closing, I am running for the Between Council because I firmly believe that my background would be a solid fit for the needs of the Town. My goal is to collaborate and partner with Mayor Post and Vice Mayor Satterwhite to execute and deliver the strategic vision for the community in an effort to make the Town a great place to live and do business. As a consistent attendee of the Between Council meetings and other local public events, I take great pride in everything that I do, and I am genuinely dedicated to the growth, safety, leadership, and success of the Town of Between.
